Candidate C - NLP Engineer

Contact

Email: [removed] | LinkedIn: [removed]

Education

M.Tech Artificial Intelligence, 2025

Skills

Python, NLP, spaCy, NLTK, Hugging Face Transformers, PyTorch, TF-IDF, word embeddings, scikit-learn

Projects

Movie Review Sentiment Analysis - fine-tuned BERT with Hugging Face and PyTorch for text classification; compared against a TF-IDF + logistic regression baseline.

Resume Entity Extractor - named entity recognition with spaCy to pull skills and organisations from resumes.

News Topic Classifier - NLTK preprocessing and word2vec embeddings.

Experience

Research Assistant, 1 year - built NLP pipelines for text classification in Python.
